

# Patch Notes - Cloudbrink 13.2.148

## Issues Resolved

	Item	Description
1	Okta Login Issue	Fixed a caching issue that caused Okta login to hang and eventually fail.
2	DSPA Query Timeout	Increased DSPA Query timeout to prevent failures during queries.
3	Brink App Crash	Resolved a startup crash issue with the Brink App.

## Support Information

We would love to hear from you! For any questions, concerns, or feedback regarding deploying the 13.2 release, please reach out at [support@cloudbrink.com](mailto:support@cloudbrink.com)
